Washing Won't Rid Head of Dandruff

The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arzon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

Do this to-night, and by morning, most if not all of your dandruff will be gone. And three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop at once, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

You can get liquid arzon at any drug store. It is inexpensive and never fails to do the work.

The Most Efficient Vacuum Sweeper We Know of is The Hoover

You have been hearing that name "Hoover" a good deal of late. And the name has become a synonym for accomplishment. In its own field the Hoover Electric Vacuum Sweeper has demonstrated its ability to accomplish what it sets out to do. From our experience in handling vacuum sweepers—and we have had considerable—we have found the Hoover the most nearly perfect and possessing the highest percentage of efficiency. We can recommend it without qualification. Almost any suction cleaner will take up the surface dust and dirt but most of them do not get the dirt that is ground down deep into the rug or carpet. This is the particular point of difference between these machines and the Hoover. The Hoover goes after the deeply embedded dirt and gets it. An electrically driven brush (a patented feature) constantly revolving, keeps up a continuous beating against the rug and loosens this dirt, which is then promptly taken up by suction and deposited in the dust bag. The Hoover may be seen—and will be fully explained to you in our Rug department, Third floor. If interested in installing a vacuum sweeper that will give you lasting and satisfactory service we shall be glad to demonstrate the Hoover in your own home upon request—and without obligation on your part.
